112 aspirational  
districts in India  
have the lowest Human  
Development Indicators.

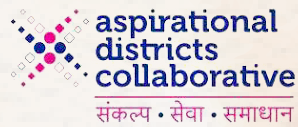

Maternal Mortality Ratio 2x and  
Infant Mortality Ratio 1.5x  
of national average

40% of students  
up to Grade 5  
unable to read/write

Monthly income < INR 5000  
for 81% population

Supporting India to become a \$5 trillion economy and improving the lives of 180 million citizens of 112 aspirational districts in collaboration with NITI Aayog.

Facilitating the confluence of SAMAAJ, SARKAR, and BAZAAR to strengthen communities' ability to own and lead hyper-local change.

#### SAMAAJ

Build India's first hyper-local collaborative by engaging NGOs, Colleges, SHGs (Self Help Groups) Faith Leaders, Local Media, PRIs (Panchayati Raj Institutions).

#### SARKAAR

Facilitate inter-departmental convergence to build inter-sectoral alignment and linkages between various government programs and schemes.

#### BAZAAR

Influence investments in under-funded regions.

100+ million  
tribal people with the lowest HDIs

as compared to any other sub-population  
in the country.

Life expectancy of about 4 years  
lower than the general population

Tribal mothers are twice as likely to  
die of childbirth than non-tribal  
women

8.6% of the total population  
accounts for 10.4% of all notified  
TB cases in India

To end preventable deaths  
among tribal and marginalised  
communities in India.

Bridging gaps in healthcare for tribal communities and bringing their health coverage and indicators at par with the state average.

#### COMMUNITISATION OF HEALTHCARE

leading to people's participation in  
improving health-ecosystem.

#### KNOWLEDGE STRENGTHENING

to inform tribal health agenda within  
the ecosystem leading to equitable  
prioritisation and investment in  
tribal health and nutrition.

#### HEALTH SYSTEM STRENGTHENING

creating transformational health  
leaders and establish a culture of  
empowerment, transparency, and  
accountability.

No institution  
focused on unlocking  
sewa bhaav of  
public institutions  
and its leaders.

- Legacy structures which do not support innovation and agility.
- Traditional HR systems unable to build leadership pipeline, attract and grow talent.
- Authoritative, top down approaches achieve compliance and not commitment.

Creating world class  
institute to build leadership  
of government officials,  
and strengthen  
institutional processes,  
practices & governance  
within government.

Building future-ready and 'sewa-bhaav'  
oriented public systems leaders and  
creating Centres of Excellence:

01

**School of 21st Century Education:**  
Enable States to pole vault,  
provide 21st century education

02

**School of Public Health:**  
Enable States to provide  
quality health services

03

**School of Leadership & Systems Change:**  
Build Leadership, grow  
Sewa Bhaav in public leaders

04

**School of Climate &  
Sustainability**

05

**School of Justice**

06

**School of Inclusion**

Sub optimal use of technology in systems and processes hindering universal access, and timely, quality service delivery of government health services.

Lack of clear long term digital vision

Low capability to execute transformation road map

Suboptimal tech use, siloed systems, restricts data-based decision making

Poor Inter department convergence

Supporting State Public Health to improve availability, accessibility, and quality of healthcare by leveraging technology to ensure Continuum of Care.

**Long term vision and roadmap:**

Support the State IT Program Management Unit to bring multiple technical experts together to build a transformation roadmap.

**Build system and tech readiness:**

Holistic digital transformation approach that re-engineers processes, enables improved technology, structured organization.

**Strengthen Governance:**

Set-up distributed and data-based governance structures to support the state in improved Governance and decision making.

Absence of leadership building platform to tap and nurture the potential of youth (nearly 22% of India's population) to contribute to development and nation building.

GANDHI FELLOWSHIP  
unfold impact enjoy

KARUNA FELLOWSHIP  
discover empower impact

Leveraging the power of  
youth and building future  
leaders engaged in  
nation building

Immersive, experiential fellowship with  
self-transformation at the core,  
providing in-depth grassroots exposure  
to government functioning and  
community behaviour, instilling spirit of  
Sewa Bhaav.

Invest in 5,000+ young fellows to  
become nation builders

Train and deploy 1000 women  
from underprivileged  
communities in digital jobs

First of its kind world class post  
graduate program to create  
sector-agnostic SEWA leaders

## | Voices from the ground

“ Saksham Bitiya Abhiyaan is beneficial for children & bringing positive change in their lives. I am committed to motivating other girls from the community to engage in the campaign as volunteers.

Ankita, Youth Volunteer, Narmada District, Gujarat

“ I felt inspired and encouraged to work as a TB Champion and help people in my community after interacting with the Anamaya team. I never thought of doing this work before. But now I don't want to stop. I want to keep doing this work and help people as much as I can.

Reshma, TB Champion and Community influencer, Pati block, Barwani district, Madhya Pradesh

“ We all know the importance of Sewa & kindness and have been taught to be kind and do good deeds, but Piramal Foundation has helped us truly internalise Sewa Bhaav. If we put this into practise in our own lives, both our personal and professional lives will be peaceful, and make a difference not only for ourselves but also for others.

Mr. Vijay Jha, Hospital Manager, District Hospital, Sitamarhi, Bihar

“ It was very special to hear my unborn child's heartbeat through Fetosense and to have the CHO support me as I went through parenting. Many thanks to Piramal Foundation and Niramay.

Nasiman Begum, Mother, Darrang

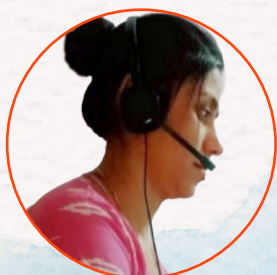

“ My sister is a Gandhi fellow and have seen her transform – I want to become a confident person like her. In a matter of five days with this group of fellows and program team, I have been able to let down my inhibitions and I made good relationship with everyone. I know I have a strong support system when I walk into the District. I am not alone!

Unmesh Nandan, Gandhi Fellow, Batch 14

“ Being a single parent, it was difficult to give quality education to my child. But Karuna fellowship changed my life. It has built my confidence and empowered me to get a good job. Now I earn and can pay my son's education fees and also support my mother financially.

Archana, Karuna Fellow
