The role provides technical leadership, establishes mobile architecture standards, and collaborates with product, clinical, business, and technology stakeholders to deliver innovative mobile solutions that enhance patient, provider, and operational experiences. Also adapt to different project requirements and healthcare domains, ensuring compliance, quality, performance, and successful delivery aligned with organizational goals.</p>		
Key stakeholders	External		Internal
	Public Health Officials and other stakeholders		Health Tech Team , BIDA, QA
Reporting structure	Role directly reports to		
	<ul style="list-style-type: none"> Sr.PD 		
Essential Qualifications	<ul style="list-style-type: none"> Bachelor's or Master's degree in Computer Science, Information Technology, Engineering, or a related field. Strong understanding of software engineering principles, design patterns, and mobile application architecture. Experience leading cross-functional teams in Agile/Scrum environments. Mobile platform certifications (Android, iOS, Cloud, Security) are a plus. <p>Exposure to cloud-native and microservices-based ecosystems.</p>		
Essential Experience	<ul style="list-style-type: none"> 8+ years of hands-on mobile application development experience. 3+ years of experience leading mobile engineering teams. Experience delivering large-scale, consumer-facing mobile applications. Experience with end-to-end mobile application lifecycle management, including development, testing, deployment, and maintenance. Experience collaborating with product managers, UX/UI designers, backend teams, QA, and DevOps teams. Experience with CI/CD pipelines and mobile release management. Exposure to cloud platforms such as AWS, Azure, or Google Cloud. Experience in performance optimization, application security, and mobile analytics 		
Essential Skills	<ul style="list-style-type: none"> Strong expertise in mobile application development: Android (Kotlin, Java) and/or iOS (Swift, Objective-C) Cross-platform frameworks such as React Native or Flutter. Mobile architecture patterns: MVVM,MVC , Clean Architecture, Modular Architecture RESTful APIs and third-party integrations. Mobile security best practices, authentication, authorization, and data protection. 		

	<ul style="list-style-type: none"> ● Performance tuning, memory optimization, and troubleshooting. ● Unit testing, integration testing, and automated testing frameworks. ● Git-based source code management. ● CI/CD tools and mobile deployment processes. ● Agile/Scrum development methodologies. ● Leadership Skills ● Technical leadership and solution design. ● Team mentoring and coaching. ● Stakeholder communication and management. ● Estimation, planning, and delivery management. ● Code review and engineering governance
Good to have	<ul style="list-style-type: none"> ● Experience in banking, fintech, healthcare, telecom, retail, or e-commerce domains. ● Exposure to cloud-native architectures and microservices. ● Knowledge of containerization technologies such as Docker and Kubernetes. ● Experience with Firebase, AppCenter, Crashlytics, or similar tools. ● Knowledge of accessibility standards and mobile compliance requirements. ● Experience working with globally distributed teams. ● Exposure to AI-assisted development tools and modern engineering practices. ● Understanding of analytics platforms such as Google Analytics, Mixpanel, or Adobe Analytics. ● Experience with mobile security assessments and penetration testing.
Travel Requirements	<ul style="list-style-type: none"> ● On need basis 50-70%

Values	
Knowledge	<ul style="list-style-type: none"> ● Expertise – we strive for a deeper understanding of our domain ● Innovation – we aspire to do things creatively
Action	<ul style="list-style-type: none"> ● Intrapreneurship – we are empowered to act decisively and create value ● Integrity – we are consistent in our thoughts, speech and action
Care	<ul style="list-style-type: none"> ● Trusteeship – we protect the interests of our customers, community, employees, partners and shareholders ● Humility – we aspire to be the best, yet strive to be humble
Key Roles/Responsibilities:	
<ul style="list-style-type: none"> ● Lead the design, development, and delivery of mobile applications. ● Define and drive mobile architecture, coding standards, and best practices. ● Collaborate with product owners and business stakeholders to translate requirements into technical solutions. ● Provide technical leadership and mentorship to mobile developers. ● Conduct design reviews, code reviews, and technical assessments. ● Ensure application scalability, security, maintainability, and performance. ● Manage mobile release planning and deployment processes. ● Coordinate with backend, QA, DevOps, and UX teams for seamless delivery. ● Drive continuous improvement initiatives across engineering practices. ● Identify and mitigate technical risks and dependencies. ● Participate in hiring, onboarding, and capability development of engineering teams. ● Ensure adherence to organizational compliance, security, and quality standards. 	

About Organization -

Piramal Foundation is a philanthropic arm of Piramal Group. The foundation undertakes projects under the four broad areas – healthcare, education, livelihood creation and youth empowerment. These projects are rolled out in partnership with various communities, corporate citizens, NGO's and government bodies.

Piramal Swasthya is a registered non-profit organization supported by Piramal Foundation and believes in Democratizing Healthcare - making healthcare accessible, affordable and available to all segments of the population, especially those most vulnerable. In order to achieve this goal, we leverage cutting edge information and communication technologies to cut costs without compromising quality as well as public-private partnerships to scale its solutions throughout India. We are present across India in 13 states with a 3800+ strong employee team comprising of 450+ Doctors and specialists. Our innovative technology based solutions have helped State governments to address the issue of availability and accessibility of quality healthcare to needy sections of society.
