Travel Requirements	<ul style="list-style-type: none"> ● On need basis

Values	
Knowledge	<ul style="list-style-type: none"> ● Expertise – we strive for a deeper understanding of our domain ● Innovation – we aspire to do things creatively
Action	<ul style="list-style-type: none"> ● Intrapreneurship – we are empowered to act decisively and create value ● Integrity – we are consistent in our thoughts, speech and action
Care	<ul style="list-style-type: none"> ● Trusteeship – we protect the interests of our customers, community, employees, partners and shareholders ● Humility – we aspire to be the best, yet strive to be humble
Key Roles/Responsibilities: <p>Project Planning & Delivery Management</p> <ul style="list-style-type: none"> ● Develop and manage detailed project plans covering scope, milestones, timelines, dependencies, and deliverables. ● Coordinate delivery across multiple workstreams including technology, operations, training, and deployment. ● Track delivery progress against plan and report status to Program Team, Product team, and stakeholders. <p>Vendor, Partner & Delivery Management</p>	

- Act as the primary delivery coordinator between Ops team, technology partners, and implementation agencies.
- Own day-to-day delivery oversight across Tech Partners and workstreams.
- Manage delivery artefacts such as backlogs, user stories, tasks, defects, and releases using JIRA or equivalent tools.
- Facilitate sprint planning, sprint reviews, and burn-down tracking.
- Track and resolve dependencies, risks, and delivery blockers.
- Ensure vendor deliverables meet functional, quality, and timeline expectations.
- Coordinate with Senior BSA for requirement clarifications and acceptance criteria.

Pilot, Rollout & Adoption Readiness

- Plan and manage pilot deployments and phased rollouts.
- Coordinate training, onboarding, and go-live readiness activities.
- Ensure solutions are usable in low digital literacy, multilingual, and low-connectivity environments.

Risk, Quality & Governance

- Identify and manage risks related to scope, delivery, adoption, and compliance.
- Maintain governance through risk logs, issue tracking, change requests, and decision escalation.
- Ensure compliance with government IT policies and data security standards.

UAT, Go-Live & Stabilization

- Coordinate User Acceptance Testing with Program Team and stakeholders.
- Track defects, ensure closure, and obtain formal sign-offs.
- Support go-live and post-deployment stabilization activities.
- Monitor early adoption and coordinate corrective actions.

Reporting & Stakeholder Communication

- Prepare structured status reports and delivery dashboards.

About Organization -

Piramal Foundation is a philanthropic arm of Piramal Group. The foundation undertakes projects under the four broad areas – healthcare, education, livelihood creation and youth empowerment. These projects are rolled out in partnership with various communities, corporate citizens, NGO's and government bodies.

Piramal Swasthya is a registered non-profit organization supported by Piramal Foundation and believes in Democratizing Healthcare - making healthcare accessible, affordable and available to all segments of the population, especially those most vulnerable. In order to achieve this goal, we leverage cutting edge information and communication technologies to cut costs without compromising quality as well as public-private partnerships to scale its solutions throughout India. We are present across India in 13 states with a 3800+ strong employee team comprising of 450+ Doctors and specialists. Our innovative technology based solutions have helped State governments to address the issue of availability and accessibility of quality healthcare to needy sections of society.
